Pantry Pal
A Grocery Expiration Tracking & Reminder App

Problem

People buy groceries with good intentions, but often forget about them or forget their expiration dates. As a result, food may expire, money is wasted, and people may accidentally consume expired food.

Pain Points

- Forget groceries — Don’t remember what they already have.
- Forget expiration dates — Difficult to track multiple dates.
- Hard to know what needs attention — Not sure what to use first.
- Food & money waste — Expired groceries are thrown away.
